

Build new or use found frames with confidence.

What you will learn by doing:

- Measure your images to determine mat and mount sizes
- Cut your materials, including a beveled opening for your mat.
- Mount your artwork on a backer board
- Order both wood & metal chopped frame rails.
- Build your frames.
- Learn about glazing options and sources.
- Fit your art into your frames.
- Wire your frames.

Saturday morning session 2 weekends
monthly. 9am-12 pm

Week 1 : Mat, mount, glazing

Week2 : build, fit, & finish

Framing Lessons

With Deborah Foutch

I have been a picture framer for more than 30 years & a teacher for more than 10. Let me share my skills with you. Walk through 2 projects as you learn: matting, mounting, glazing, wood and metal frames built and fit.

1 to 1 lesson is \$40/hr. Are you willing to be paired? You each pay \$30 /hr. Matting, mounting, and glazing materials for 2 projects 16 x20 or smaller included. You choose and buy your frame stock.

Space is limited book your lessons now:

Sept. 5& 12 Oct. 3&10

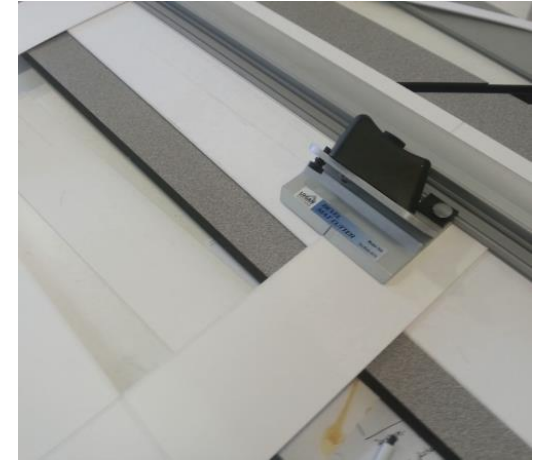

Nov. 7 & 14 Dec. 5 & 12

Pictures safely and attractively framed by or for you.

Whether you are an artist or an art buyer knowing the working parts of a properly designed frame will let you be an informed buyer of readymade, or custom frames. If you enjoy the processes you can buy studio time & use my tools, or consider investing in your own.

I am happy to take on custom work but I hope you will find these skills useful as a self-framer.

Added reward!

Completion of this 2 week course allows you to join my wholesale buying group. You can order your framing materials through my studio with no further fee and rent time to use my equipment.

Deborah is a patient and thorough teacher, I enjoyed spending time at the studio framing my photos.
